KONCEPT CARMA, INC.

Partners in Sustainability

Koncept Carma, Inc. dba KCI, a woman owned Florida based business, is a purpose-driven environmental company that applies creative solutions that are practical and sustainable in achieving a balanced ecosystem.

We engage with industrial facilities, construction contractors, home builders, and government entities, who need assistance with Environmental Compliance and Stormwater Management.

Federal regulations require stormwater discharges associated with specific industrial activity to be covered under an NPDES permits.

Does your facility have exposure of materials or industrial activities to stormwater?

For example, not limited to:

Raw material
Dumpster with waste materials

Above-ground storage tanks
Waste and scrap materials

Production operations
Hazardous substances

KCI delivers a great customer experience supporting client's environmental sustainability through managing risk, satisfying environmental regulations, and monitoring best practice performance.

Types of Services we offer:

Stormwater Pollution Prevention
Plan (SWPPP)

NPDES Stormwater
Inspections

Compliance Reporting &
Permitting

Best Management Practices

Water Sampling

EzDMR Assistance

Our Promise:

To provide precision and dependable service for a positive impact on productivity and ultimately your bottom line.
